

# Meet the VetCare@Home team

## **Dr John Rosie** MRCVS

I've been in practice since qualifying in 2004 working in both the UK and Australia. I began Vetcare@home as I saw the need for people to receive great clinical care in the home as well as being able to provide medications and services at a competitive price.

## **Kate Jones** RVN MBVNA

I have been in practice for 10 years and qualified as a veterinary nurse in 2011. I was trained at a veterinary hospital in the Peak District and then spent several years in small animal practice on Anglesey in North Wales. I have a keen interest in geriatric care and arthritis in older pets.

## **Cara Calver-Perkins** RVN SQP

I qualified in 2001 and have been in practice for 20 years. I have gained various qualifications including animal nutrition and a certificate in animal behaviour.

VetCare@Home

# About us

Pets play a key role in the home, are considered part of the family and are treated as such by us. More than 50%\* of the conditions seen in a vet practice could easily be seen in a home environment. We will always be caring, friendly, honest and offer transparent pricing.

## Fun & friendly

We are always approachable and have a smile on our faces

## Committed to caring

We are dedicated and committed to giving your pet the best care

## A trusted team

People work better together. We stand by our word & do what we say

## Pioneering

We are innovative and always look for new ways to improve pet care

\* The BVA's voice of the Veterinary Profession of nearly 700 vets working with companion animals reveal the most common conditions seen are Skin conditions 70%, Gastrointestinal problems 54%, Joint problems 45%

## Joining is easy!

**All it takes is completing and signing a simple form which you can do by contacting one of the team.**

For more information speak to a member of our team who will be happy to answer any questions you might have.

## Vetcare@Home Health Club

**Unlike pet insurance, which normally cover emergency treatments, this plan includes all the routine treatments your pet needs to stay in the best of the health.**

All of our plans include:

- Yearly vaccination
- Twice yearly health checks
- Year round flea treatment
- Year round lungworm, roundworm and tapeworm treatment
- Free gifts throughout the year
- Discounted food delivered to the door
- Discounted fees for all other appointments
- Exclusive client evenings and talks

**One price for all sized cats and dogs of £12.99 per month**  
Dogs over 40kg £18.99
